STP RFP – FINAL REMINDER: Comments on Proposed Changes to Energy Contracts due TODAY!

Published Date: 2015-03-02 08:08:37

The Illinois Commerce Commission approved the Illinois Power Agency's Procurement Plan which includes Procurement Events for the Spring of 2015: procurement of monthly on-peak and off-peak standard block forward products as well as combinations through a Standard Products RFP as well as procurement of renewable energy credits from solar photovoltaic systems through a REC RFP.

The Standard Products RFP aims to procure on-peak and off-peak blocks of monthly and/or multi-month durations for the period June 1, 2015 to May 31, 2018 to meet the supply needs of eligible retail customers of Ameren Illinois Company ("Ameren" or "AIC") and of Commonwealth Edison Company ("ComEd").

The Procurement Administrator has posted the draft energy contract documents to the [Standard Products Section](#) of the procurement website. The Procurement Administrator is proposing to use the 2014 energy contracts with only minor changes. For each utility, consensus among that utility, the IPA, Commission Staff, Procurement Administrator, and Procurement Monitor was reached on the terms that needed to be modified in the energy contract for that utility. As approved by the ICC, the Procurement Administrator invites interested parties to submit their comments on the proposed changes that have been made relative to the previously used 2014 energy contract. **Please note that comments are solicited on proposed changes only and not on the entire energy contract.**

To submit comments, please visit the [Standard Products Section](#) of the IPA procurement website (www.IPA-energyrfp.com) to download:

- the Invitation to Comment; and
- the Comment Form to be used for submitting comments.

The deadline to submit comments is **6PM CPT TODAY, Monday, March 2, 2015.**
