Appendix 20. Fuel Mix Report
Spring 2026 Procurement Events
Due Tuesday, April 21, 2026 by 6 PM (CPT)

Instructions to complete this Fuel Mix Report:

The completed report must be emailed to the Procurement Administrator at Illinois-RFP@nera.com by 6 PM CPT on Tuesday, April 21, 2026.

Please complete Section 1 on this sheet. If the expected fuel mix type indicated in this report includes Hydropower, Landfill Gas, Nuclear, Solar, or Wind please also complete Section 2 on this sheet.

For each applicable Company, month, and segment (On-Peak and Off-Peak), provide the expected fuel mix for the Bids identified as winning Bids.
The expected fuel mix must be provided for each Company separately on the appropriate sheets within this report:

1) AIC - Fuel Mix Report
2) ComEd - Fuel Mix Report
3) MEC - Fuel Mix Report

Section 1: Required Representations:

The following representations must be made by either the Officer of the Bidder or the Representative of the Bidder.

I, _____, represent the following:

1) This report provides the expected fuel mix by month and segment for the Bids identified as winning Bids under this RFP for each applicable Company.
2) The information has been prepared to the best of the Bidder's ability and the actual fuel mix for energy supplied during the month and segment to a Company may differ from what is provided in this report.
3) I acknowledge that, in accordance with the Act and ICC Orders, the expected fuel mix data related to winning Bids will be aggregated across successful Bidders and made public at the time of the ICC approval of a procurement event.
4) I acknowledge that the Illinois Power Agency will request the actual fuel mix of supply from the Bidder in each December for the preceding six (6) months of a Planning Year for which energy was supplied to a Company and in each June for the preceding six (6) months of a prior Planning Year for which energy was supplied to a Company. The fuel mix data will be requested in aggregate for the preceding six-month period to be reported in a format similar to this Fuel Mix Report. If a portion of the actual fuel mix is unknown, the Bidder will be asked to explain why the information is not available.
   The Bidder provides the following contact information of a representative to be contacted at the time of the IPA request for the actual fuel mix of supply:

Contact Name:	
Phone Number:	
Email Address:	

Bidder Name	Signature

Section 2: Additional Disclosure:

For avoidance of doubt, the applicable supplier contract is exclusively for energy supply only and not for renewable energy credits or zero emission credits or carbon mitigation credits.
Even if the environmental attributes are expected to be transferred to another party by the Bidder, please report the fuel mix of the underlying energy supply if this is known.

Please provide the following information:

For Hydropower, Landfill Gas, Nuclear, Solar, or Wind are the environmental attributes associated with this generation expected to be transferred by the Bidder to another entity?
Please state Yes or No:
If Yes, please indicate if all attributes are expected to be transferred, or indicate what portion is expected to be transferred.

AIC - Fuel Mix Report
Spring 2026 Procurement Events
Due Tuesday, April 21, 2026 by 6 PM (CPT)

Notes:
- Enter a percentage for each fuel source type for a given month, year, and segment (On-Peak or Off-Peak).
- If the fuel source type remains to be determined for a portion of the winning Bid quantity, please enter the applicable percentage in the column labeled "To Be Determined".
- If the fuel source type is not one of the types listed below, please enter both the percentage and fuel source type in a column labeled "Other".
- If a portion of the winning Bid quantity is expected to be sourced from PJM or MISO, please enter the percentage and either "PJM fuel mix" or "MISO fuel mix" in the column labeled "Other" The Bidder should not just provide "PJM fuel mix" or "MISO fuel mix" if specific generation resources have been identified.
- For each month and segment for which the Bidder has Bids identified as winning Bids, the row should sum to 100%.
