Coal to Solar and Energy Storage Initiative Procurement

The following information is made public at the time of Commission approval of a procurement event under the Coal to Solar and Energy Storage Initiative Procurement: (i) the address and nameplate capacity for selected utility-scale solar projects; and (ii) the contact information for each selected supplier. The price per renewable energy credit (“REC”) is fixed at \$30 for the applicable duration of each contract. An energy storage facility must be constructed and operated at the same site as the utility-scale solar project.

Selected Projects.

Address of Project	Size of Project in MW (AC rating)	Annual Quantity of RECs
10901 Baldwin Rd, Box 146, Baldwin, Illinois 62217	68.40	464,564
134 CIPS Lane, Coffeen, Illinois 62017	44.20	
17751 North Cilco Road, Canton, Illinois 61520	20.00
