

Public Service Electric and Gas Company  
Case Name: BGS 2026  
Docket No(s): ER25040190

Response to Discovery Request: RCR-BGS-0026  
Date of Response: August 05, 2025  
Number of TOU Customers

Question:

In reference to the PSE&G specific addendum, page 29, please indicate the number of customers currently on the BGS RS TOU 2P rates.

Attachments Provided Herewith: 0

Response:

None, because the BPU did not authorize PSE&G to implement the distribution two-period time of use rate PSE&G originally proposed in its December 29, 2023 electric distribution rate case petition.

Page 29 of PSE&G's Company Specific Addendum ("CSA") references the residential two-period time-of-use rate PSE&G proposed in its December 29, 2023 electric distribution rate case petition ("RS TOU-2P")<sup>2</sup> and a corresponding BGS residential two-period time-of-use rate PSE&G proposed in its July 1, 2024 Company Specific Addendum, which was submitted during the pendency of that electric distribution rate case ("BGS RS TOU 2P").<sup>3</sup> PSE&G's 2023 electric distribution rate case concluded with a Board Order that did not authorize implementation of the distribution RS TOU-2P rate, eliminating the need for a corresponding BGS rate.<sup>4</sup> Therefore, there are currently zero customers on the BGS RS TOU 2P rate referenced on page 29 of the Company Specific Addendum.

Please note that PSE&G's CSA includes the following regarding a residential three-period time-of-use rate:

In its recent base rate case Order ("Rate Case Order"), the Board approved the implementation of the three period TOU residential rate structure ("RS TOU-3P). The Company presently plans to implement the RS TOU-3P rates later in 2025. As described below, the Company herein is proposing revisions to the approved 2025
