

Appendix 16 – Energy Transition Community Grant Areas and Hydropower Preference Communities

First Item: Energy Transition Community Grant Areas

Table A below provides the current list of the twenty-seven (27) qualified plants and mines and the respective coordinates used by the Illinois Department of Commerce and Economic Opportunity (“DCEO”) to determine areas eligible to receive a grant under the Energy Transition Community Grant Program. **An Energy Transition Community Grant Area is the area that is both within a 30-mile radius of the coordinates associated with a plant or mine in Table A and within Illinois.** For the convenience of Bidders, a map of the Energy Transition Community Grant Areas is provided on the following page.

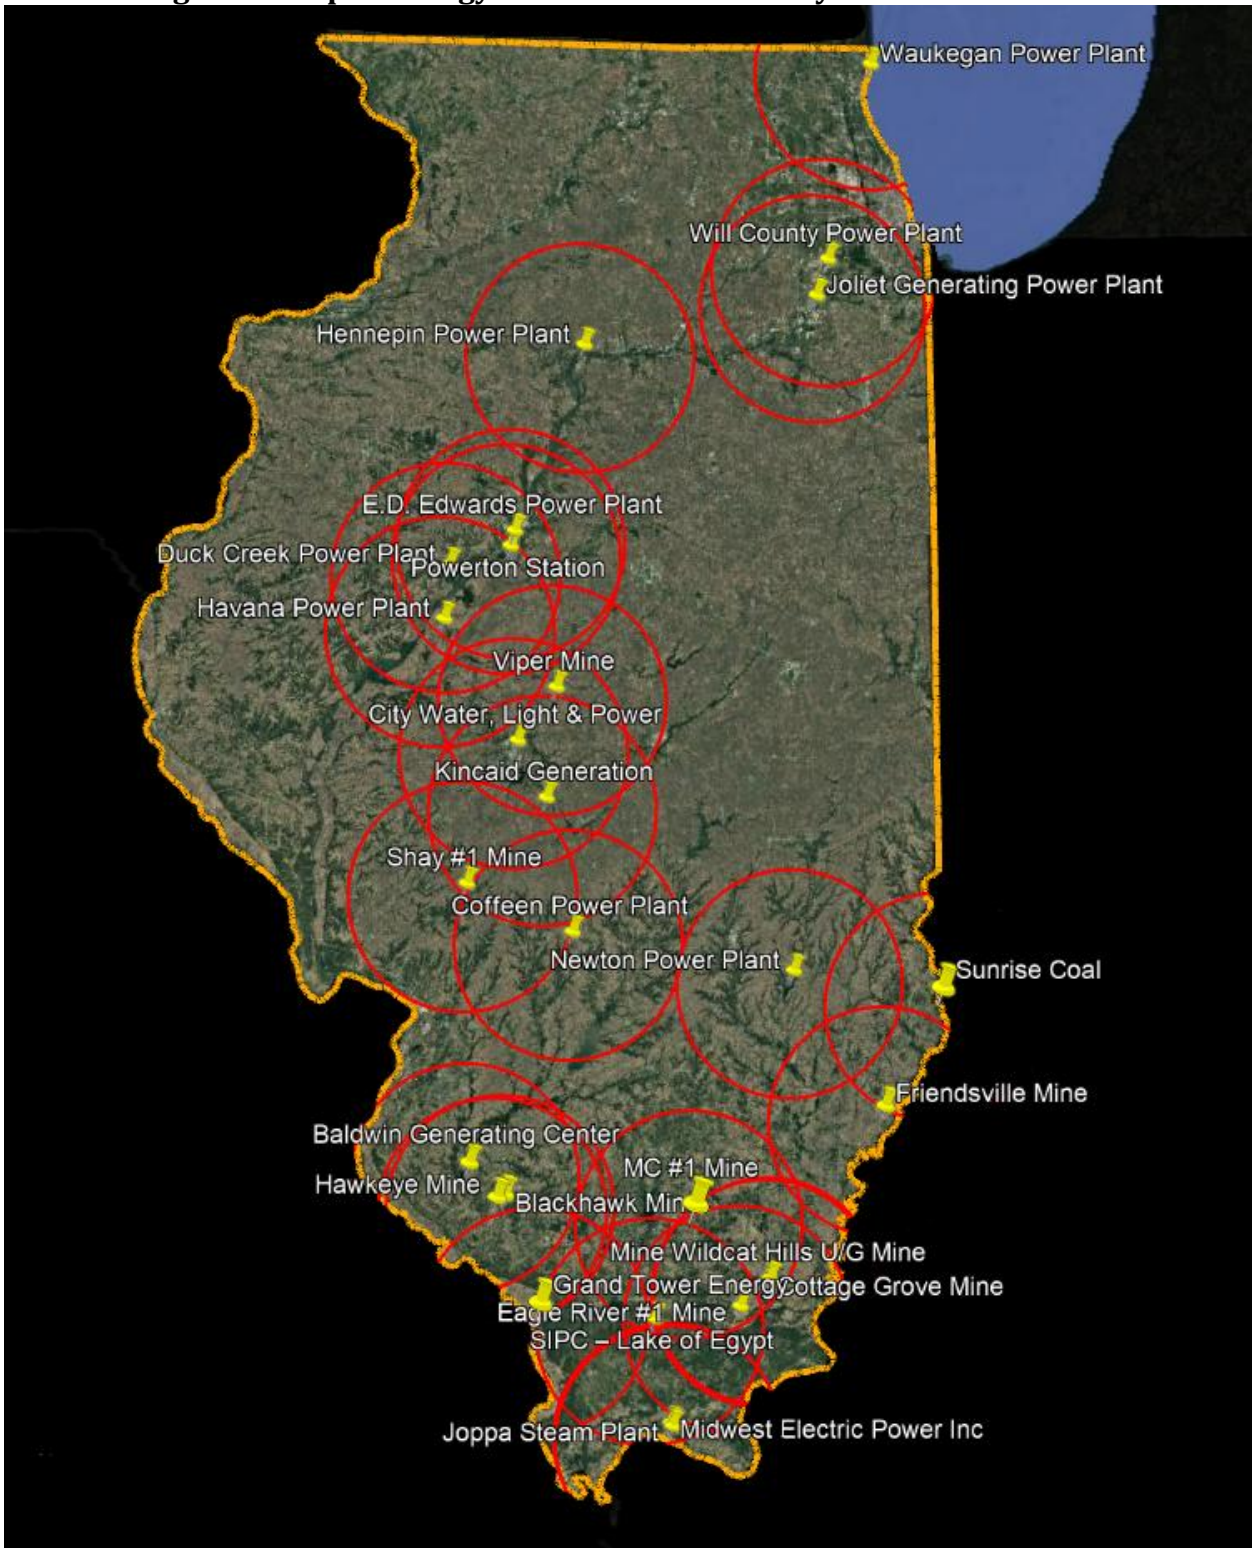

If the Project is located in Illinois and is either a utility-scale solar project or a utility-scale wind project, and at least 50% of the Project site is located within an Energy Transition Community Grant Area, the Project qualifies for the bid evaluation price reduction described in paragraph I.2.11 of the Indexed REC RFP Rules. Brownfield site photovoltaic projects and hydropower projects do not qualify for the bid evaluation price reduction related to Energy Transition Community Grant Areas.

Second Item: Hydropower Preference Communities

A **Hydropower Preference Community** is either a designated environmental justice community (“EJC”), as defined by the IPA pursuant to subsection (b) of Section 1-56 of the IPA Act and as defined in maps or other documents maintained by the IPA, or is a community with median incomes that do not exceed 82% of the median income in the state of Illinois.

If the Project is a hydropower project, and the Project Site is located in or adjacent to a Hydropower Preference Community in either (1) the EJC map linked below, or (2) Table B below, the Project qualifies for the bid evaluation price reduction described in paragraph I.2.11 of the Indexed REC RFP Rules.

- (1) To determine whether the Project Site is within or adjacent to an EJC, please search the address using the EJC map available from the IPA [Illinois Solar for All \(arcgis.com\)](https://arcgis.com). In the Part 1 Form, under the second item in Section 6, input the relevant Block Group ID in the field provided for Name of Hydropower Preference Community.
- (2) Table B lists the communities with median incomes that do not exceed 82% of the median income in the state of Illinois. U.S. Census Bureau data was used to determine the eligible communities, which are all geographical places in Illinois, including towns, villages, cities and Census Designated Places (CDP).^{2, 3} The median household income for the state of Illinois is \$81,702 based on 2023 inflation-adjusted dollars.⁴

⁵ Table B is subject to change in future procurement events. Median income data is not available for some communities in Table S1903 via the American Community Survey. If data is not available through the American Community Survey for a community, a Bidder may submit alternate evidence that the median income for such community does not exceed 82% of the median income in the state of Illinois for review by the Procurement Administrator. Any alternate evidence must be based on data from the U.S. Census Bureau.
