

**Appendix 6: Trial Bid Form
Utility Distributed Generation ("DG") RFP
Bid Form - General Information
Friday, October 02, 2015**

Template Information:

In addition to this 'General Information' sheet, this Bid Form contains the following two (2) sheets:

- 1) First Block
- 2) Additional Blocks

Bidder Information:

Name of Bidder	
Contact Name	
Phone Number	
Email	

Bidder information is incomplete. All fields are mandatory.

Product Information:

A REC is a Standard REC and represents all environmental attributes for 1 MWh of energy from a renewable source. As a part of their Bid, Bidders may include distributed generation systems from the following renewable technologies:

- (i) Wind
- (ii) Solar thermal energy photovoltaic cells and panels
- (iii) Biodiesel, crops and untreated and unadulterated organic waste biomass, tree waste
- (iv) Hydropower that does not involve new construction or significant expansion of hydropower dams.

There are two different Products, each corresponding to RECs associated with different system sizes.
The two (2) Products are defined below:

Product	Product Definition	Target (MWh)
Small Size Product	RECs generated from systems in the Small Size Class i.e. systems less than 25 kW in size.	6,518
Large Size Product	RECs generated from systems in the Large Size Class i.e. systems between 25 kW and 2,000 kW in size.	13,194

Complete and Sign Certification:

I, _____, certify under penalty of perjury that I am authorized to submit these Bids.

By affixing my electronic signature below I understand and agree to the following: All Bids must remain binding until at least seventeen (17) business days after the Bid Date. Each Bid constitutes a binding and irrevocable offer to supply a REC of a Product at the price provided as the Bid and under the terms of the applicable supplier contract. If the ICC approves some or all of these Bids, a binding and enforceable obligation arises under the terms of the applicable supplier contract and the Bidder will execute the applicable supplier contracts, will submit all necessary supporting documentation, and will provide any necessary deposit, in the timeframe specified by the applicable supplier contracts.

**First Block
Utility Distributed Generation ("DG") RFP
Trial Bid Form - DG Bids
Friday, October 02, 2015**

Notes:

- A Bid is a price per REC rounded to the nearest cent for a Block. The First Block presented by a Bidder must include at least 1 MW of systems that were qualified.
- In Section 2, specify the price per REC in your First Block.
- In the 'Select Systems' row of Section 3, designate which of your qualified systems are included in your First Block at the Price designated in Section 2 by placing an "x" in the appropriate cell.
- If any system in the First Block is a New system, you must designate a volume of RECs for the first year of the contract. The First Year Volume must be at least 1 REC and no more than the Annual Volume of RECs produced by the system.
- In Section 1, if the Bidder fails to designate at least 1,000 kW of systems for the First Block, the Bidder will be warned that its Bid Form is incomplete.
- In Section 2, if the Bidder designates a price for the First Block greater than a price for any Additional Block, the Bidder will be warned.
- In Section 3, if the Bidder fails to designate a First Year Volume for a new system the Bidder will be warned.

Illustrative

Section 1.

SUMMARY OF BID

	First Block	Total First and Additional Blocks
Sum of System Size (kW)	850	1,074
Annual Volume (RECs)	1,348	2,066
Total Contract Cost	\$808,950	\$1,284,810

INCOMPLETE - You First Block bid must be at least 1,000 kW in size. Please add at least 150 additional kW

Section 2.

First Block Price (\$/REC)

\$150.00

COMPLETE

Section 3.

	1	2	3
System Number			
Name of System	System A	System B	System C
Technology	Wind	Wind	Solar
Capacity Factor	20.70%	20.70%	14.38%
Size of System (kW)	500.00	24.00	350.00
Annual Volume (RECs)	907	44	441
Select Systems	x		x
New or Existing	New	Existing	New
First Year Volume (RECs)	1		

COMPLETE

INCOMPLETE - Designate a first year volume between 1 and the annual volume for the system

DG Bids

Notes:

- A Bid is a price per REC rounded to the nearest cent for a Block. Each Additional Block presented by a Bidder must include at least 100 kW of systems of a single Class that were qualified.
- In Section 2, specify the price per REC for each Additional Block of Small Size Class systems in the 'Bid in \$/REC' row. If the system is a New system, you must designate a First Year Volume of RECs for the first year of the contract.
- In Section 3, specify the price per REC for each Additional Block of Large Size Class systems in the 'Bid in \$/REC' row. If the system is a New system, you must designate a First Year Volume of RECs for the first year of the contract.
- Each Bid on this tab must be greater than the Bid associated with the First Block.
- In Section 2 and Section 3, if the Bidder fails to designate a First Year Volume for a new system, or if the Bidder fails to include 100 kW of systems at each price, the Bidder will be warned that its Bid Form is incomplete.
