

**Trial Bid Form  
Utility Distributed Generation ("DG") RFP  
TRIAL Bid Form - General Information**

**Template Information:**

**In addition to this 'General Information' sheet, this Bid Form contains the following two (2) sheets:**

- 1) First Block
- 2) Additional Blocks

**Bidder Information:**

Name of Bidder	
Contact Name	
Phone Number	
Email	

**Bidder information is incomplete. All fields are mandatory.**

**Product Information:**

A REC is a Standard REC and represents all environmental attributes for 1 MWh of energy from a renewable source. As a part of their Bid, Bidders may include distributed generation systems from the following renewable technologies:

- (i) Wind
- (ii) Solar thermal energy, photovoltaic cells, and panels
- (iii) Biodiesel, crops and untreated and unadulterated organic waste biomass, tree waste
- (iv) Hydropower that does not involve new construction or significant expansion of hydropower dams.

There are two different Products, each corresponding to RECs associated with different system sizes. The two (2) Products are defined below:

Product	Product Definition
Small Size Product	RECs generated from systems in the Small Size Class i.e. identified systems less than 25 kW in size and Forecast Quantities
Large Size Product	RECs generated from systems in the Large Size Class i.e. identified systems of at least 25 kW but no more than 2,000 kW in size.

**Complete and Sign Certification:**

I, \_\_\_\_\_, certify under penalty of perjury that I am authorized to submit these Bids.

By affixing my electronic signature below I understand and agree to the following: All Bids must remain binding until at least seventeen (17) business days after the Bid Date. Each Bid constitutes a binding and irrevocable offer to supply a REC of a Product at the price provided as the Bid and under the terms of each applicable supplier contract. If the ICC approves some or all of these Bids, a binding and enforceable obligation arises under the terms of the applicable supplier contract and the Bidder will execute the applicable supplier contracts, will submit all necessary supporting documentation, and will meet the credit requirements of the applicable supplier contracts in the timeframe specified.

**First Block  
Utility Distributed Generation ("DG") RFP  
TRIAL Bid Form - DG Bids**

Notes:

- A Bid is a price per REC for a Product rounded to the nearest cent. The First Block presented by a Bidder must include at least 1 MW of systems that were qualified. These systems may be of different technologies, may be from different Size Classes, may be from identified systems, and may include a Forecast Quantity.
- In Section 2, specify a price for each Product in your First Block. For your convenience, the REC-weighted average First Block Bid will be calculated for you.
- In the 'Select Systems' row of Section 3, designate which of your qualified systems are included in your First Block at the calculated Price in Section 2 by placing an "x" in the appropriate cell.
- In the 'REC Quantity' row of Section 4, designate the number of Forecast Quantity RECs that are included in your First Block at the calculated Price in Section 2.
- In Section 1, if the Bidder fails to designate at least 1,000 kW of systems for the First Block, the Bidder will be warned that its Bid Form is incomplete that its Bid Form is incomplete.
- In Section 2, if the Bidder First Block Bid for a given Product is greater than a price for any Additional Block of that Product, the Bidder will be warned that its Bid Form is incomplete.
- If a Bidder exceeds the Forecast Quantity submitted in the Part 1 Proposal, the Bidder will be warned that its Bid Form is incomplete.

Notes:

- A Bid is a price per REC for a Product rounded to the nearest cent. Each Additional Block presented by a Bidder must include at least 100 kW of systems of a single Size Class that were qualified.
- An additional Block for the Small Size Class may include systems of the Small Size Class and may include a Forecast Quantity.
- In Section 2, specify the price per REC for each Additional Block of the Small Size Product for identified systems in the 'Bid in \$' row.
- In Section 3, specify the number of Forecast Quantity RECs and the price per REC for each Additional Block of the Small Size Product in the 'Bid in \$' row.
- In Section 4, specify the price per REC for each Additional Block of Large Size Product in the 'Bid in \$' row.
- Each Bid on this tab must be greater than the Bid associated with the same Product in the First Block.
- In Section 2 and Section 3, if the Bidder fails to include 100 kW of systems at each price, the Bidder will be warned that its Bid Form is incomplete.
