Indexed REC RFP – ANNOUNCEMENT: Supplier Fee; Guidelines on Contract Execution Process

Published Date: June 21, 2023

A Project selected through the Indexed REC RFP and approved by the Illinois Commerce Commission will be assessed a Supplier Fee that will be due within seven (7) business days after ICC approval of the Bids. The Supplier Fee is **\$0.43 times the Annual Quantity of RECs** bid for a Project (which is equivalent to about \$0.0215 per REC assessed on the anticipated quantity of RECs over the entire 20-year delivery term).

For illustrative purposes, we provide below an example of the calculation of the Supplier Fees that will be due to the Illinois Power Agency. If a Project is selected through the Indexed REC RFP and is approved by the ICC, and if the annual quantity won for the Project is 100,000 RECs, then the Supplier Fees due would be \$43,000, which is calculated as follows:

Supplier Fee per REC	= \$0.43 per REC of the annual quantity
Annual Quantity	= 100,000 RECs
Supplier Fee for Project	= Supplier Fee x annual quantity
	= \$0.43 x 100,000 RECs = \$43,000

The post-bid process is discussed in Section VI.2 of the RFP Rules, and the contract execution process for each Company is fully described in Paragraph VI.2.17. of the RFP Rules. A summary of the process is attached to this announcement.

Indexed REC RFP – REMINDER: Invitation to Comment on the First Draft Indexed REC Contract and Draft Preliminary Proposal Requirements Due TODAY, March 17

Published Date: March 17, 2023

Public Act 102-0662 (the “Climate and Equitable Jobs Act”) was signed into law and became effective on September 15, 2021. In accordance with Public Act 102-0662, the Illinois Power Agency (“IPA”) filed its revision to its Long-Term Renewable Resources Procurement Plan (“2022 Long-Term Plan”) with the Illinois Commerce Commission (“ICC”) on March 21, 2022. The ICC issued a Final Order approving the 2022 Long-Term Plan with modifications on July 14, 2022. As approved by the ICC, the 2022 Long-Term Plan provides for a procurement of Indexed Renewable Energy Credits (“Indexed RECs”) from new utility-scale wind projects, new utility-scale solar projects, and new brownfield site photovoltaic projects this Summer 2023. The calendar for the Summer 2023 Indexed REC RFP is available on the procurement website [here](#).

On March 3, 2023 the Procurement Administrator posted to the [procurement website](#) the First Draft Indexed REC Contract and the Draft Preliminary Proposal Requirements. **The Procurement Administrator invites interested parties to submit their comments on any aspect of the First Draft Indexed REC Contract and the Draft Preliminary Proposal Requirements. The Procurement Administrator also seeks stakeholder feedback on specific topics.** The comment process is explained in the Invitation to Comment posted [here](#). The process can be summarized as follows:

- Please submit an attachment with your comments on the First Draft Indexed REC Contract and the Draft Preliminary Proposal Requirements by email to the Procurement Administrator at: Illinois-RFP@nera.com
- Please provide telephone and e-mail contact information in the event that the Procurement Administrator seeks clarification regarding your comments.
- If providing feedback on the First Draft Indexed REC Contract, please submit your comments with track changes in Microsoft Word. We strongly encourage you to provide explanatory notes either in a separate document or highlighted in tracked changes.
- If providing feedback on Draft Preliminary Proposal Requirements, please include a reference to the section name, from the left-hand column of the respective table, that is applicable to the requirement for which you are providing comment(s).

The deadline to provide comments is TODAY, March 17, 2023.
