Product Information and ZRC Targets:

One ZRC in this procurement event represents one megawatt (“MW”) of Seasonal Accredited Capacity for a given Season of a Planning Year, and is either “MISO-Delivered” or “Financially-Settled”. A Bidder will bid on MISO-Delivered ZRCs and/or Financially-Settled ZRCs in the Bid Form, which will determine whether the Bidder will execute the “(AIC) MISO-Delivered Capacity Agreement” and/or the “(AIC) Financially-Settled Capacity Agreement”, respectively, with AIC should the Commission approve the Bidder’s winning Bids. Under the (AIC) MISO-Delivered Capacity Agreement, a Seller will transfer to AIC ZRCs that qualify to satisfy the resource adequacy requirements of Module E of the MISO Tariff using the Module E Capacity Tracking Tool in accordance with such agreement. The (AIC) Financially-Settled Capacity Agreement is a financial swap contract for capacity that will mirror volumes of ZRCs awarded and settlement prices under the MISO Planning Resource auction, but does not require the transfer of ZRCs to AIC.

The procurement of capacity for AIC is to satisfy a portion of its forecast requirement for each Season in the 2026-2027 Planning Year and each Season in the 2027-2028 Planning Year. Bids for MISO-Delivered ZRCs and Financially-Settled ZRCs are evaluated together up to a single ZRC Target for each Season of a Planning Year. **The provisional ZRC Targets are provided in the tables below. The final ZRC Targets for each Season of a Planning Year are posted to the procurement website when they become available.**

**Appendix 9
ZRC MWS for 2026-2027**

Due Friday, September 26, 2025 between 10 AM and 12 PM (CPT)

ZRC MWS Description:

The Bidder may, but is not required to, specify a ZRC Maximum Willingness to Supply for a Product (i.e. Season of a Planning Year). The ZRC Maximum Willingness to Supply for a Product is the maximum number of ZRCs, across MISO-Delivered ZRCs and Financially-Settled ZRCs, that the Bidder is willing to win for that Product, across all ZRCs bid on that Product individually as well as all ZRCs bid on the Annual Combination that includes that Product. Unless the Bidder specifies otherwise, the ZRC Maximum Willingness to Supply is set at its default value, which is the minimum of: (i) the number of ZRCs bid, across MISO-Delivered ZRCs and Financially-Settled ZRCs, for that Product (across ZRCs bid on that Product individually and the Annual Combination that includes that Product); and (ii) the ZRC Target for that Product. The default values for the ZRC Maximum Willingness to Supply are given in the "ZRC Default MWS" row below.

Instructions:

The Bidder may specify another value in the "ZRC MWS" row below. If a Bidder submits a ZRC Maximum Willingness to Supply for a Product, that specified ZRC Maximum Willingness to Supply must be equal to or less than the ZRC Default Maximum Willingness to Supply for that Product. The specified ZRC Maximum Willingness to Supply for a Product must be at least four (4) ZRCs. If the bidder submits a ZRC Maximum Willingness to Supply that is greater than the ZRC Default Maximum Willingness to Supply for a Product, that ZRC Maximum Willingness to Supply submitted by the Bidder will be ignored and discarded. The ZRC Default Maximum Willingness to Supply will be used instead. Details regarding a Bidder's Bids, including the calculation of the ZRC Default Maximum Willingness to Supply, as well as checks for the convenience of Bidders, are provided in the "Checks and Flags" section following the "Calculations and Checks" header.

ZRC MWS Specification:

Calculations and Checks

The below information is provided strictly for the convenience of Bidders. Bidders are referred to Appendix 19, which explains the ZRC MWS and ZRC Default MWS in more detail. This tab provides the calculation of the ZRC Default MWS. To the extent that the Bidder has specified a ZRC MWS for a Product that causes Bids on that Product or on the Annual Combination not to be evaluated, the Product is flagged below. To the extent that the specified ZRC MWS for a Product will be discarded because it exceeds the ZRC Default MWS for that Product, the Product is flagged below. To the extent that the Bidder has submitted Bids that will not be evaluated because the number of ZRCs bid on a Product exceeds the ZRC Target for that Product, the Product for which there is such an occurrence is flagged below. These calculations and flags are provided for informational purposes only and none of the flags below imply that the Bid Form is deficient. Not all circumstances where a Bidder's Bids are not evaluated because of a specified ZRC MWS are flagged by these checks. The evaluation of the Bid Form will be provided to each Bidder by phone.
