Block Energy Bid Evaluation

- Bid Evaluation
 - ◆ The evaluation considers only Bids that **meet or beat the benchmarks**
 - ◆ Evaluation identifies the least cost package
- Benchmarks developed using confidential methodology approved by ICC

AIC Capacity Products

- One (1) **ZRC** represents one (1) MW of Seasonal Accredited Capacity that qualifies to satisfy the resource adequacy requirement for a **given Season**, as defined by MISO, of a Planning Year
 - ◆ Summer is June – August; Fall is September – November; Winter is December – February; Spring is March – May
- **New for 2025:** There are two capacity contracts available. Bidders can submit bids for **MISO-Delivered and/or Financially-Settled ZRCs** (indicated at the time of bidding)
 - ◆ Qualification requirements for purposes of the Proposal under the RFP are the same to submit bids for MISO-Delivered and/or Financially-Settled ZRCs

MISO-Delivered ZRCs

- Winning suppliers execute (AIC) MISO-Delivered Capacity Agreement
- MISO-Delivered ZRCs must be transferred using Module E Capacity Tracking Tool (“MECT”) by the Delivery Deadline specified in the contract prior to MISO’s Planning Resource Auction (“PRA”)
- MISO-Delivered ZRCs can be from any of the MISO defined LRZs
 - ◆ Payment Adjusted for MISO-Delivered ZRCs outside the Compliance Zone (LRZ 4 or successor zone)

New for 2025: Financially-Settled ZRCs

- Winning suppliers execute (AIC) Financially-Settled Capacity Agreement
- Financially-Settled ZRCs mirror volumes of ZRCs awarded in the AIC Capacity procurement event as well as settlement prices under the MISO PRA, but **do not require the transfer of ZRCs to AIC**
 - ◆ Financial settlement is based on the ACP for the Compliance Zone (LRZ 4 or successor zone)
 - ◆ Financial settlement can be positive or negative

New for 2025: Annual Combination Available

- Bidders may also bid on **Annual Combinations**, which include ZRCs from each Season of a Planning Year
 - ◆ ZRCs in an Annual Combination must consist of either all MISO-Delivered ZRCs or all Financially-Settled ZRCs
- There are two Annual Combinations:
 - ◆ **2026-2027 Annual Combination**
 - ◆ **2027-2028 Annual Combination**
- The number of ZRCs available in an Annual Combination is the minimum number of ZRCs available across the Seasons in a Planning Year

AIC Capacity Targets and Annual Example

- ZRCs for a given Season of a Planning Year will be procured up to a Target for that Season across MISO-Delivered ZRCs and Financially-Settled ZRCs
 - ◆ Bids for MISO-Delivered ZRCs and Financially-Settled ZRCs are evaluated together up to a single ZRC Target for each Season of a Planning Year
- Targets in RFP documents are **provisional**; final targets expected to be posted by **August 18**

Table I-5. ZRC Targets

Product	Forecast Requirement	ZRC Target (number ZRCs)
Summer 2026-2027	1,932	806
Fall 2026-2027	2,025	950

Spring 2027-2028	1,523	318

Annual Combination:

- e.g., 2026-2027 Annual Combination
- **ZRCs available:** minimum number of ZRCs available in the Seasons of the Annual Combination

Table I-6. Number of ZRCs Available for Each Annual Combination

Annual Combination	ZRC Target
2026-2027 Annual Combination	628
2027-2028 Annual Combination	236

Capacity Bids and Bid Evaluation

- A “Bid” includes a price, in \$/MW-day, for ZRCs for a given Season of a Planning Year or for an Annual Combination
 - ◆ A Bid also includes the number of ZRCs to which the price applies, **each Season subject to a minimum of four (4) ZRCs**
 - ◆ For a MISO-Delivered ZRC only, a Bid also includes the “Source Zone” of the ZRCs, which is the LRZ in which the ZRCs are located
- The evaluation of Bids proceeds independently for each Planning Year
 - ◆ The evaluation considers only Bids that **meet or beat the benchmarks**
 - ◆ Evaluation identifies the least cost package
- Benchmarks developed using confidential methodology approved by ICC

Supplier Contracts

Final Contracts Posted on July 22

- Separate energy contracts for AIC and ComEd
- Separate capacity contracts for MISO-Delivered and Financially-Settled ZRCs
- Each contract is standard and **non-negotiable**
- Bidders **must accept terms** of applicable supplier contract during the qualification process and prior to bidding
- Bidders with bids approved by the ICC will execute the applicable supplier contract and related documents within three (3) business days of ICC decision **according to instructions detailed in the RFP Rules**
- Contracts are the same as those used in Spring 2025

Main Credit Terms – Energy Contracts

- **Exposure** is based on MtM methodology
- Standard Letter of Credit and Guaranty are provided
- A single Guaranty may be applicable to **multiple contracts**
- Acceptable modifications to Guaranty are provided
- Collateral Requirement applies **only to Seller**

MISO-Delivered (AIC) Capacity Agreement

- For a given Source Zone and for a given Season of a Planning Year, the amount paid to the Seller is the **average of the Seller's approved Bids for such Season and Source Zone**, in \$/MW-day, multiplied by the number of ZRCs delivered, multiplied by the number of calendar days in the Season for such Planning Year
- Payment for ZRCs from other zones (outside of LRZ 4) adjusted based on Auction Clearing Price of Source Zone relative to Compliance Zone for the applicable Season
 - ◆ Examples provided as FAQs:
<https://www.ipa-energyrfp.com/faqs/block-energy-and-capacity-faqs/?topic=contract>
- No Payment adjustment required for ZRCs from Compliance Zone (LRZ 4)

New for 2025: Financially-Settled (AIC) Capacity Agreement

- For a given Season of a Planning Year, the **financial settlement amount** equals the multiplicative product of:
 - a) The result obtained by subtracting the ACP for the AIC Compliance Zone for the Season from the average of the Seller's own approved Bids for the Season, in \$/MW-day;
 - b) The number of calendar days in the Season; and
 - c) The number of Financially-Settled ZRCs approved by the Commission for the Season.
- If the financial settlement amount is positive, then AIC will pay the Seller. If the financial settlement amount is negative, then the Seller will pay AIC. Examples provided as FAQs: <https://www.ipa-energyrfp.com/faqs/block-energy-and-capacity-faqs/?topic=contract>
- Seller is responsible for all required reporting to the Commodity Futures Trading Commission and will be the “reporting counterparty”

Main Credit Terms – Both AIC Capacity Contracts

- **Exposure under capacity contracts:**
 - ◆ **For both:** 10 % of Contract Value as defined in the respective contract and is required on the Effective Date
 - ◆ **For MISO-Delivered only:** if Seller is required to pay Buyer after adjusting for ZRCs sourced from other zones: the exposure is simply the amount owed to Buyer
- Form of Letter of Credit and Guaranty provided as Attachments to AIC Capacity Contracts
- Acceptable modifications to the Guaranty provided as Schedules to the Guaranty
- Collateral requirement applies **only to Seller**

❷ Bidder bids for two (2) Jan/Feb Combination blocks

❸ Bidder bids for one (1) Annual Combination block

❹ Bidder bids for five (5) February blocks total

Bidder limits the number of February blocks won by setting MWS equal to two (2) blocks

Two Steps to Bid Evaluation

- 1. First Step:** Bids that fail to meet the benchmarks are eliminated
- 2. Second Step:** Selection of package that yields the lowest average cost per MWh

AIC Capacity Bids and Bid Form

Separate Tabs by Planning Year and MISO-Delivered vs Financially-Settled

- Two tabs for each Planning Year (one each for MISO-Delivered and Financially-Settled)
- Bidders must indicate for each Bid:
 - Quantity of ZRCs (**each Bid for a Season is subject to a minimum of four (4) ZRCs**)
 - Price of ZRCs
 - Source Zone of ZRCs (**MISO-Delivered only**)

Section 1. Number of ZRCs Bid for Planning Year 2026-2027 (Across MISO-Delivered ZRCs and Financially-Settled ZRCs)														
Summer 2026-2027			Fall 2026-2027			Winter 2026-2027			Spring 2026-2027			2026-2027 Annual Combination

ZRC Bid Entries (Continued)

- A Bidder may bid on any number of ZRCs (subject to a four (4) ZRC minimum for each Bid for a Season) not to exceed the ZRC Target for that Season in a Planning Year
- No minimum quantity for a Bid for an Annual Combination

ZRC Maximum Willingness to Supply

- The **ZRC maximum willingness to supply** is a maximum number of ZRCs, across MISO-Delivered and Financially-Settled, that a Bidder wants to win for a particular Product (i.e., Season of a Planning Year)
- It will be assumed that the Bidder is willing to win up to:
 - ♦ The Target for a Product; OR
 - ♦ The number of ZRCs bid for that Product. This includes bids (across MISO-Delivered ZRCs and Financially-Settled ZRCs) on an individual Product as well as bids for an Annual Combination that includes that Productwhichever is smaller
- The Bidder may, **but is not required to**, specify a **ZRC maximum willingness to supply** for a Product
- The specified ZRC maximum willingness to supply for a Product **must be at least four (4) ZRCs**
- In certain scenarios the ZRC Default MWS may be less than four (4) ZRCs

The evaluation proceeds independently for each Planning Year

- 1. First Step:** Bids that fail to meet the benchmark are eliminated
