Level of Block Supply under DSP VI

Information provided here is applicable to the Residential Customer Group only and does not apply to the Small C&I or Large C&I Customer Groups.

Information on the level of Block Supply under DSP VI

A portion of the default service load for the Residential Customer Group is served by block products.

PPL Electric has procured three 10-year 50 MW block products for a supply period June 1, 2026 – May 31, 2036 through the long-term block supply RFP.¹

Under DSP VI, the block supply amount remaining in the affected supply period is:

- December 1, 2026 – May 31, 2036: 150 MW
